

ROAD TRAFFIC SAFETY POLICY

TÜMAD Mining Industry and Trade Inc. is a Turkish mining group engaged in gold production and exploration projects related to precious and base metals under its mining exploration licenses. Our strategy is to create economically viable and large-scale mining operations by conducting advanced explorations in promising mining areas, while maintaining our commitment to quality and respecting nature, the environment, and human life.

Our goal is to meet the road traffic safety needs of all our employees, subcontractors, suppliers, and stakeholders involved in our current and future mining activities by keeping pace with rapidly changing and evolving technologies.

We commit to adhering to the following activities to achieve our Road Traffic Safety (RTS) objectives:

- Taking all necessary measures during our operations to prevent accidents caused by drivers, vehicles, roads, and the environment, with the goal of zero traffic accidents. We aim to protect the ecological balance of the environment, minimize adverse effects, and ensure the health, life, and property safety of our employees and others who may be affected by our activities.
- Supporting the Road Traffic Safety management system within the framework of plans, procedures, and instructions to ensure that it is implementable, auditable, improvable, and sustainable.
- Ensuring the continuous application, improvement, and development of legal regulations and standards at the highest level in our activities under the Road Traffic Safety management system.
- Investigating issues that could negatively impact traffic safety as required by the Road Traffic Safety management system, developing corrective actions, and taking necessary precautions to prevent recurrence.
- Keeping up with new technologies and developments to establish the highest standards in selecting the appropriate vehicles and equipment for our needs.
- Conducting all necessary activities to ensure the compliance with and continuous review of the Road Traffic Safety policies, objectives, and targets, thereby establishing a structure that is sustainable and geared toward excellence.
